PROFESSIONAL SUMMARY

A skilled Frontend Engineer passionate about building interactive, accessible, and efficient web applications that prioritize mobile responsiveness and the user experience. My expertise spans modern HTML5, CSS3, and technologies such as TypeScript, React.js, Next.js, GraphQL (Apollo and Relay), and Python/Django, as well as UI frameworks like Material UI, xStyled, and Shadcn. I thrive in collaborative environments where I can help design, develop, and deliver innovative solutions that make a real impact.

WORK EXPERIENCE

Kuja Platform by Adeso

Hybrid, Kenya

Frontend Developer (Contract)

Nov 2025 - Present

- Develop tailored frontend solutions for Kuja Platform through Odoo QWeb customization, ensuring seamless integration with underlying database design workflows.
- Improve platform usability by refining layouts, workflows, cross-browser compatibility, and overall user experience.
- Collaborate with cross-functional teams to turn business and product needs into practical frontend solutions, providing post-deployment technical support.

Instadriver

Remote, Kenya

Software Engineer (Full-time)

Feb 2024 - Jun 2025

- Spearheaded migration from React.js to Next.js using customized Webpack and Babel configurations, cutting page load times by 50% and boosting Core Web Vitals scores.
- Built and optimized responsive, accessible UI components with Next.js, React Query, and Tailwind CSS, ensuring seamless mobile responsiveness and cross-browser compatibility.
- Integrated ImaliPay APIs to enable M-Pesa and bank transactions, powering driver and partner wallets with secure payouts/top-ups.
- Implemented code-splitting and lazy loading, enhancing scalability, build performance with Vite, and efficiency for high-traffic pages.
- Collaborated with backend engineers and designers in agile sprints, performing code reviews, and resolving implementation challenges to improve maintainability.

Qawqal

Remote, Kenya

Frontend Developer (Fractional)

Aug 2024 - May 2025

- Delivered the Qawqal Admin dashboard using Next.js, Tailwind, and Bootstrap grid utilities, improving usability and reducing admin task time by 30%.
- Built user-facing features with GraphQL (Apollo) and React, integrating AI model selection (OpenAI, Claude, Google AI) aligned with standard database design principles.
- Enhanced application state management with Zustand and Apollo cache, improving data consistency, response workflows, and usability.
- Applied testing with Jest + Cypress, catching bugs earlier to troubleshoot and debug complex frontend failures before release systematically.
- Automated deployments via Vercel CI/CD and GitLab pipelines, ensuring fast and reliable release cycles.

EpicApp Limited**Remote, Kenya***Frontend Developer**May 2023 - Dec 2023*

- Developed and maintained dynamic Angular applications with HTML5 and CSS3, improving performance and engagement through reusable component design.
- Partnered with cross-functional teams to deliver scalable frontend solutions and provide technical support, ensuring alignment with business goals.
- Enhanced code quality with unit tests (Jasmine) and GitLab / Git-based version control.

United States of Africa**Nairobi, Kenya***Frontend Developer**Nov 2022 - May 2023*

- Created React-based web applications utilizing ES6+ syntax, delivering engaging UIs optimized for speed, scalability, and cross-browser compatibility.
- Worked closely with backend engineers to integrate REST APIs, coordinate on database design, and improve data flow efficiency.
- Contributed to agile ceremonies (sprint planning, retrospectives), driving timely feature delivery, and providing cross-team technical support.

Gitstart**Remote, Kenya***Frontend Developer Internship**Aug 2022 - Sep 2022*

- Contributed to Storybook open-source project, improving UI component documentation, HTML5/CSS3 standard adherence, and reusability.
- Built and refined client-facing applications with React and Next.js, emphasizing mobile responsiveness, accessibility, and standard build configurations.
- Strengthened frontend skills with GraphQL integration, exposure to scalable application design, and hands-on efforts to troubleshoot and debug integration issues.

EDUCATION

Jomo Kenyatta University of Agriculture and Technology (JKUAT)**Nairobi, Kenya***BSc. in Computer Science**Sep 2017 - Dec 2022***SKILLS**

- Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3
- Frontend: React.js, Next.js, AngularJS, React Native, Redux, Redux Toolkit, Zustand, Context API, React Query, Material UI, Bootstrap, xStyled, Shaden
- Database: PostgreSQL, MySQL
- Other: Node.js, Django, GraphQL (Apollo, Relay), Docker, Git, GitHub, GitLab, Figma, Webpack, Vite, Babel, Jest, Cypress, Jasmine
